

Product overview

The AmbiFlex P12 is a dedicated pipe for Underfloor Heating applications and one of our most popular models of pipe. The combination of flexibility and durability makes this pipe a choice for the every day installer.

The base material is PE-RT type 1 material, with the signature orange SpeedStripe which is seen on the core UFH pipes from Ambiente. The P12 features a build up of 5 layers including an EVOH layer which acts as an oxygen barrier.

Key features

- LifeTime warranty
- Flexible pipe
- Dedicated for UFH applications
- Signature orange SpeedStripe for quick identification
- Coil sizes, 100, 200 and 500m
- Two way meter marking on pipe

Product warranty

P12 carries a LifeTime warranty and is compatible with the SlimPul fitting.

The P12 pipe is expected to be pressure tested to double the normal working pressure of the system and left under pressure for 30mins.

The SlimPul pipe fittings should be used to maintain the lifetime warranty of the pipe.
